Friday 10<sup>th</sup> July 2020

Dear Parents/Carers,

## **Year 10 Summer Learning**

In order to ensure our students are fully prepared for year eleven study and therefore have the best possible chance of success in their GCSEs we are providing all year ten students with four weeks worth of summer learning. It is more important than ever, that this year the summer holiday is used effectively to consolidate learning as we are unsure about the final changes to the exams and therefore available curriculum time next year.

We have only provided four weeks worth of learning as we recognise that it is important for students to also have a break during this time. It is at your discretion when, during the summer holiday, your son/daughter completes the learning as we understand that different families will have different summer plans. The learning provided is in the form of short revision activities which should take no longer than 15 minutes to complete for each subject. Therefore, we envisage that this learning should take between one and a half and two hours a day.

We have compiled the learning for all of the subjects into one document which can be accessed on the school website and is attached electronically to this email. The document will also be uploaded to Class Charts. If you would like a paper copy of this document please email the office ([office@smsj.london](mailto:office@smsj.london)) and we will organise for these to be printed and available for collection on Wednesday 15<sup>th</sup> July.

Yours sincerely,

Ms Mason

Assistant Principal
